

Berk-Tek LANmark-10G FTP Plenum Category 6A, F/UTP

Berk-Tek's LANmark-10G FTP is ideal for applications that require the most advanced cable performance and the additional signal isolation advantages of an F/UTP design. The Berk-Tek design incorporates one overall foil shield rather than individually shielding each twisted pair. Having one overall shield reduces the time need for cable termination, results in a smaller outside diameter and reduces material costs.

DESCRIPTION

Berk-Tek LANmark-10G FTP, Performance Guaranteed

Your business demands continuous performance from your IT network, so our specifications aren't simply numbers on the page. They define the way that we do business. This means that you are **guaranteed** industry-leading performance and quality for all Berk-Tek products.

Some other manufacturers talk about "typical" values, at Berk-Tek, we hold ourselves to a higher standard. We won't talk about typicals, we talk about what is true, guaranteed, and independently verified.

Keep your business running by relying on Berk-Tek.

Perform Beyond Expectations... Choose Berk-Tek.

Construction:

23 AWG, bare copper wire insulated with FEP. Two insulated conductors twisted together with varying lays to form a pair and four pairs laid up to form the basic unit. The cable is shielded with an overall polyester/aluminum foil with stranded tinned copper drain wire and ripcord and jacketed with flame-retardant polymer alloy.

Flame Rating:

- Plenum-NFPA 262, CMP
- UL Listed as CMP-LP (0.7A)

Features:

- Outstanding signal isolation
- Superior alien crosstalk performance
- RoHS Compliant

Benefits:

- Increased signal isolation prevents contaminant noise from entering cabling system
- Completely compliant with IEEE requirements
- Lower bit errors resulting in increased network performance

PROUDLY MADE IN THE USA

STANDARDS

National ANSI/TIA 568.2-D;
UL 444

Berk-Tek LANmark-10G FTP Plenum Category 6A, F/UTP

CHARACTERISTICS

Dimensional characteristics

Length per reel	1000.0 ft
Number of pairs	4

Usage characteristics

Field of application	Indoor
Fire safety	CMP - Plenum Rated
Recommended operating temperature range	-20 .. 105 °C
